CHICAGO – August was the 18th month in a row that unemployment rates fell in every metro area in the state compared to a year ago, according to preliminary data released today by the Illinois Department of Employment Security (IDES) and the U.S. Bureau of Labor Statistics (BLS). Despite some job growth, six metro areas saw job loss.

Illinois businesses added jobs in eight metros. The largest increases were seen in: Carbondale-Marion (+1.7 percent, +900), Danville (+1.7 percent, +500), Champaign-Urbana (+1.3 percent, +1,300), and Elgin (+1.3 percent, +3,300), and Chicago-Naperville-Arlington Heights Metro Division (+1.0 percent or +35,900). Decreases were seen in: Quad Cities (-2.3 percent, -4,200), Kankakee (-1.6 percent, -700), and Peoria (-1.4 percent, -2,600). The industry sectors recording job growth in the majority of metros were: Transportation, Warehousing and Public Utilities (11 of 14), Retail Trade (nine of 14) Wholesale Trade (eight of 14), and Leisure and Hospitality (eight of 14).

“Typically when the unemployment rate goes down, the number of people getting jobs goes up. But since that is not the case in many of Illinois’ metro areas, focusing only on the decline in unemployment

rates does not tell the whole story,” said IDES Director Jeff Mays. “With many people dropping out of the labor force, thereby pulling the unemployment rate down, we need to increase job growth in all metro areas.”

Not seasonally adjusted data compares August 2015 with August 2014. The not seasonally adjusted Illinois rate was 5.6 percent in August 2015 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.2 percent in August and 10.6 percent in January 2010 at its peak. Rates also fell in 101 of Illinois’ 102 counties. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Monthly 2014 unemployment rates and total nonfarm jobs for Illinois metro areas were revised in February 2015, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

Central Illinois Highlights

Help Wanted

Area employers advertised for 8,500 positions in August and approximately 83 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board, which is a global, independent business membership and research association. Employers actually need more workers than the help wanted advertising indicates because some industries, such as Construction, typically do not post advertised job openings.

Decatur MSA

The August 2015 not seasonally adjusted unemployment rate declined to 6.8 percent from 8.4 percent in August 2014. There were an estimated 3,400 unemployed people in the labor force in August 2015. The last time the August rate was equal to or lower was in 2007 when it was 6.1 percent.

The total number of nonfarm jobs in the Decatur metro area declined by (-100) compared to one year ago. Payrolls increased in Professional and Business Services (+300), Other Services (+100), and Construction (+100). Declines were reported in Leisure and Hospitality (-300), Retail Trade (-100), Transportation, Warehousing, and Utilities (-100), and Manufacturing (-100). All other major industry sectors were unchanged compared to one year ago.

Springfield MSA

The unemployment rate fell to 4.7 percent in August 2015 from 5.9 percent in August 2014. There were an estimated 5,400 unemployed people in the labor force in August 2015. The last time the August rate was equal to or lower was 2007 when it was 4.6 percent. The rate is below the comparable state rate of 5.6 percent and the U.S. rate of 5.2 percent. The data is not seasonally adjusted.

The Springfield metro area nonfarm job total declined by (-600) compared to a year ago. Payroll increases were reported in Educational and Health Services (+900), Transportation, Warehousing, and Utilities (+200), and Retail Trade (+100). Declines were led by Government (-900), Leisure and Hospitality (-200), and Information (-200). All other major industry sectors were unchanged compared to last year.
